

ADDITIONAL EQUIPMENT

Makes your machine an unbeatable cleaning professional

Thanks to our modular system, your machine becomes an unbeatable cleaning professional. Here you will find a small selection of possibilities:

High water pressure depending on configuration

Additional brooms

Leaf suction hose device

Interchangeable systems for summer and winter

Surface extraction depending on configuration

SALES

Strong partnership. Also in your vicinity.

Within, as well as outside Europe BROCK Kehrtechnik provides you with a reliable and strong partner network with numerous representatives globally. We gladly consult you personally also in your vicinity!

You can find BROCK dealers in the following countries:

VS6

6 m³ + 1,200 l

2,500 mm to 5,050 mm

INNOVATIVE SWEEPING TECHNOLOGY
MADE IN GERMANY

THE MUNICIPAL COMPREHENSIVE SWEEPER

With its 6 m³ dirt container volume, the VS6 is one of the smaller large road sweepers. Like its larger versions, the VS6 is also extremely powerful and versatile. The BROCK modular system makes it possible to equip and convert them for both summer and winter service.

Large sweepers from BROCK Kehrtechnik GmbH are innovative sweeper units made in Germany paired with the customers' favourite chassis types. Efficient, modern drive concepts form the interface between the chassis and sweeper body. The sweeper unit can be driven, for example, by an additional superstructure engine according to country-specific exhaust emission standards or a hydrostatic drive that allows the machine to run at an optimum sweeping speed.

The sweeping units are just as freely selectable as the type of drive. Adapted to their future areas of application, the robustly designed sweeping unit types can be freely selected and assembled from the BROCK modular system. Whether double plate broom on one side or single plate broom on both sides? The modular principle offers a multitude of possibilities. **Can both be configured according to performance and cleaning task.**

100% ELECTRIC

Also available as VS6e.

TRENDSETTING

Modern drive concepts guarantee that the strict emission guidelines of the European Union are met and ensure clean streets and less pollution for humans and the environment.

DIVERSE VERSIONS

Sweeper unit

Auxiliary engine	•
Semi-Hydrostat	•
Hydrostat (only with a manual gearbox)	•
100% electric	•

Chassis
